

Nancy Elftman, CO, FAAOP, C.Ped. has built a unique specialty around a diversified background in medical implants and patented surgical procedures. After expanding her career to include orthotics, prosthetics and pedorthics, she was devoted to the development of one of the most successful wound care protocol and follow-up programs for the neuropathic / dysvascular population.

She is recognized for journal and textbook publications as well as speaking internationally on the neuropathic limb. Comprehensive educational videos are widely utilized to teach the evaluation technique and wound care off-loading protocol. Courses are taught utilizing an outstanding library of case studies compiled over 15 years in research and development, and over 20 years of clinical experience. As an orthotist and pedorthist at Rancho Los Amigos Medical Center, research and development of programs and products for the neuropathic limb was a top priority.

Nancy's background includes BA: psychology & public relations, minor in biology, BS health care: orthotics and prosthetics. Her dedication to private practice and patient relationships completes her renowned career in the preservation of the neuropathic limb.
